

Facilities Planning and Enrollment Projections

Each year the superintendent is to submit a past enrollment statement to the Board by building and by grade and project these enrollments into the future. Whenever construction, renovation or remodeling of school facilities is being contemplated, the Board may authorize outside studies of area population trends that may well affect school enrollment.

The Board will gather and analyze appropriate data to evaluate the district's facilities needs on a long-range basis. Such data could include, enrollment projections, anticipated changes in the instructional program, analysis of community building plans, analysis of sites, and evaluation of present facilities.
