

Central Linn School District 552-C

Code: **GBE**
Adopted: 9/11/89
Revised: 4/14/05, 8/14/06
4/11/16

Staff Health and Safety

The Board directs the superintendent to take appropriate means to provide for the health and safety of all employees while engaged in the performance of their duties. The input of staff will be encouraged in the development of district health and safety plans.

The superintendent will develop a district plan for dealing with hazardous chemicals in the workplace. This plan will include proper labeling, storage and disposal of all such materials.

The superintendent will develop districtwide training activities to deal with the use of hazardous chemicals. Training will include the identification, use, storage and disposal techniques needed to assure safety of staff and students.

In meeting the requirements of the law, employees will be trained to recognize and respond appropriately to the presence of hazardous chemicals. All personnel who may be exposed to hazardous materials during the performance of their duties or in an emergency will be so informed and trained to appropriately deal with these materials.

The superintendent will appoint a district safety committee and place a person to serve as the district safety officer for the district. This committee shall meet at least monthly, inspect all district facilities and report to the Board quarterly its findings concerning the health and safety of facilities and grounds as these conditions may affect students and staff.

The district superintendent shall have published for all employees a Safety Program Handbook.

The superintendent will provide staff members with the Safety Data Sheets (SDS), which must accompany any hazardous substance used in the school setting.
