Mentoring Opportunities for 6th Grade Students

Students who are in 6th grade are eligible to be Mentors. Mentors do not pay the \$15 fee. Mentors must be willing to assist a teacher in a K-2 class during Enrichment. You will be assigned each week by Ms. Chandra the class you will assist in. Expectations include helping students as directed by the teacher, setting an example of good behavior and encouraging students to listen and be engaged in the activities being taught and cleaning up at the end of class. If you cannot fulfill these expectations, you will be assigned a class to attend as a student.

If you choose to mentor, parents need to fill out the registration and just write "mentor" in the class space.

I agree to be a mentor and follow the expectations.
